1 PUBLIC COMMENT

2 BY PAM OSMAND

3

4 I'm not good at doing this, but I just think
5 it's outrageous that we are not abiding by our treaty
6 obligations, and I do feel that, you know, it's something
7 that America really needs -- United States of America really
8 does need to start pulling back from any nuclear weaponry,
9 and disbanding the whole program because peace is the thing
10 we should all be aiming for for a global community.
